

TCLP / Outreach

Date: Nov 16-18, 2022

Time: 10:30

Location: Ashford School

Audience: Fourth grader

Title: Building a Pyramid

Presenter: Mona Ghareeb

Objectives:

By the end of this outreach presentation, the audience would be able to:

- 1- Recognize the importance of the great pyramids of Giza, Egypt.
- 2- Identify and explain some of the objects inside the pyramids such as ankh- scarab beetle
- 3- Understand the ideas of the sarcophagus.
- 4- Create their pyramid.

Materials:

- PPT presentation
- Video
- Colors
- Glue stick
- Scissors
- 3-D pyramid template

- **Warming-up:**

Teacher will switch on a video about the pyramids and how they were built.

- **Guided practice:**

T presents a presentation about the pyramids and explains some important objects used on the walls of the pyramids for the ancient.

- **Independent practice:**

Ss will create their 3-D pyramid and place some symbols and famous Egyptian objects on the walls.

Assessment:

Students will explain the meaning of the objects they use inside their pyramids.
