

What did China benefit the world through the Silk Road?

PAPER

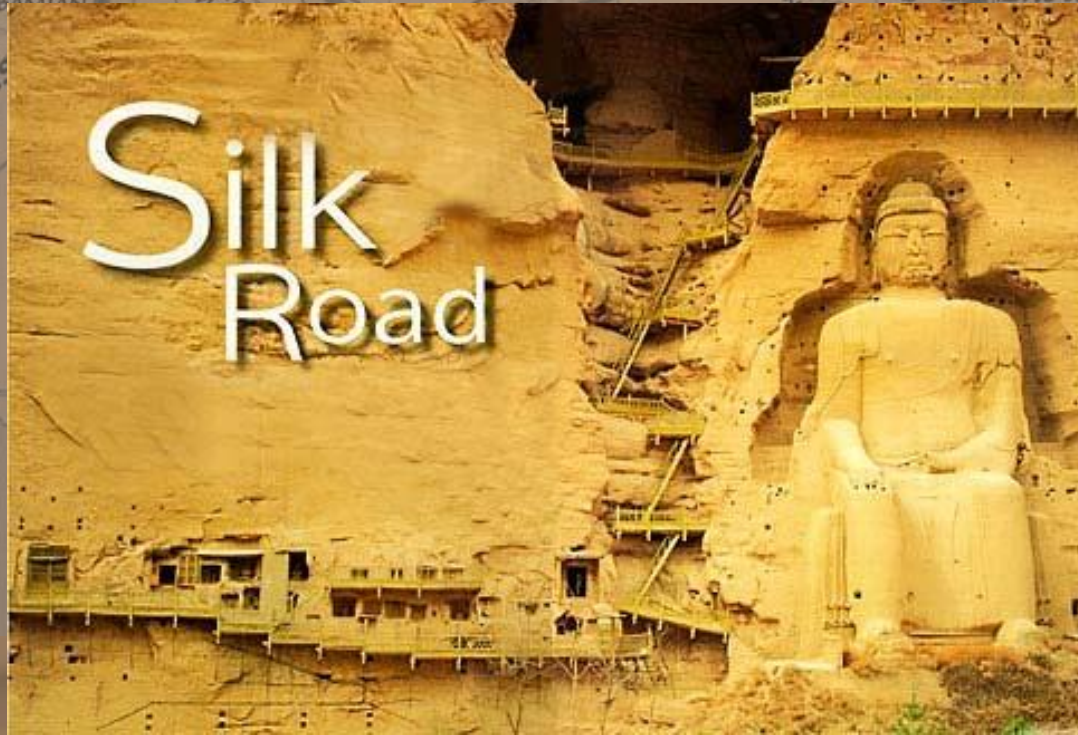

This Is Used Lots!

Paper was invented in ancient China in about 105 C.E. during the Han Dynasty and spread slowly to the west. Papermaking has traditionally been traced to China. Shen Cai Lun- an official attached to the imperial court during the Han Dynasty (69 BC-AD 220) He created a sheet of paper using mulberry and other fast-growing plants along with fishnets, old rags, and hemp waste.

Promote the achievements of Renaissance in the west and accelerate the circulation of knowledge.
